Subject: Microsoft Settlement

I think the proposed Microsoft settlement is a joke. Please do not accept any settlement that does not absolutely prevent this ruthless company from engaging in its anticompetitive practices. As a computer user, as a US citizen, and as a voter, I am sick of seeing the government let Microsoft off with a slap on the wrist. They have shown contempt for the rule of law by consistently breaking the provisions of the previous ruling against them, and to accept a nearly identical punishment this time around is simply idiocy.
